### Testimonial

To whom it may concern

DMS Ltd has now been using C.A.D.E for the last 12 months on projects varying from kitchen re-fits, loft conversions and small building works.

As a company we have found them to be very accommodating and reliable. Their ability to talk to customers in plain English, rather than electrical jargon, makes for good confident customer relations.

All prices have been fair and above board, not once has the bill been greater than the quotation. Other than when there has been agreed extras and they have always made us ware of these, before commencing the work.

I would have no hesitation in recommending C.A.D.E and wish them continued success.

Yours sincerely
